

## **FLOOD PROTECTION MEASURES**

To protect property from flood damage...

- Demolish the building or relocate it out of harm's way.
- Elevate the building above the flood level.
- Elevate damage-prone components, such as the furnace or air conditioning unit.
- Dry floodproof the building so water cannot get into it.
- Wet floodproof portions of the building so water won't cause damage.
- Construct a berm or redirect drainage away from the building.
- Maintain nearby ditches and storm drains so debris does not obstruct them.
- Correct sewer backup problems.
